

Summer Term Reception Newsletter

Topic

This term we are looking at the topic 'Growing and Life Cycles.' We will be looking at plants and the lifecycles of different animals. Alongside this topic we will be exploring how humans change over time and discussing our similarities and differences from birth to now. We will be asking for pictures of your child as babies to contribute to their learning. We will also be gardening, planting seeds and taking care of them in order to know what living things need to survive in the environment.

Clothes

Please can all clothing be clearly labelled with your child's name and class.

Homework Packs

Well done to those have been doing their homework packs. These will be checked by the class teacher throughout the week. Please keep an eye out for extra work within the pack for your child to complete.

PE

This is a reminder that PE is every **MONDAY**. Please bring your child to school wearing their PE kit on that day.

Writing at Home

The children's handwriting is improving, and we hope they are writing more at home. Why not get them to write you a shopping list, or write about their favourite part of their week. If they do any writing at home, please bring it in, we would love to see it!

Reading

Well done to everyone who is reading with their child every night. Please make sure that you sign and try to write a comment each time you read with your child in their reading diaries. This helps us know what reading skills and strategies they are using at home.

Maths

This term we will be focusing on number recognition, ordering, addition and subtraction. In the second half of the Summer term children will exploring capacity, 3D and sharing and doubling. We will also begin to count in 2s, 5s and 10s. If you could follow this up and practise this at home, it would be very beneficial for your child.

Thank you for your continued support.
